Consultation of

ESA's Joint Consultation Paper on Guidelines on the convergence of supervisory practices relating to the consistency of supervisory coordination arrangements for financial conglomerates

Comments of the German Insurance Association

Reference/Paragraph	Comments
2. Executive Summary	General Comments:
	The German Insurance Association basically supports the efforts of the ESAs to converge the supervisory practises on financial conglomerates in Europe. Consistent and harmonised requirements on coordination arrangements of supervisory colleges might prove to be useful in this respect.
	However, the consultation paper remains silent about an important aspect of financial conglomerates supervision, which is the future cooperation between the ESAs and the European Central Bank (ECB). Article 4 Section 1 (h) of Council Regulation 1024/2013/EU empowers the ECB to participate in the supplementary supervision of a financial conglomerate in relation to the credit institutions included in it and to assume the tasks of a coordinator where the ECB is appointed as the coordinator for a financial conglomerate in accordance with the criteria set out in relevant Union law.
	Given that the ECB shall exercise its tasks in close cooperation with the ESAs (Article 3 of of Council Regulation 1024/2013/EU) and the assignment to develop technical standards, guidelines and recommendations should rest with the EBA respectively the ESAs (Recital 32 of Council Regulation 1024/2013/EU), clarification is needed how the ECB and its special role should be integrated in the coordination agreements. This relates both to the allocation of tasks and responsibilities within the college and in particular to the cooperation between the supervisory authorities involved if the ECB acts as coordinator for the financial conglomerate.
	We therefore encourage to ESAs to engage in a dialogue with the ECB in order to discuss the implications of an ECB-involvement. From an insurance perspective, it is paramount that all authorities are aware of the restrictions of ECB supervisory powers with regard to insurance undertakings as part of the conglomerate, no matter whether an insurance-led or

	a bank-led conglomerate is concerned. Council regulation 1024/2013 limits the exercise of supervisory powers of the ECB on credit institutions. This is in line with Article 127 (6) of the
	Treaty on the Functioning of the European Union (TFEU) which actually prevents the
	Council from delegating powers relating to the prudential supervision of insurance undertakings to the ECB. It needs to be ensured that the ban on granting supervisory
	powers to the ECB according to Article 127 (6) TFEU is not violated. Therefore, the
	guidelines should explicitly clarify that the decisions taken by the ECB, especially in its
	capacity as coordinator, must not affect the insurance entities belonging to the financial conglomerate.
1	Article 11 of Directive 2002/87/EC requires the coordinator and the competent authorities to
	have written coordination agreements in place. However, Article 11 does not grant a legal
	mandate for the ESAs to specify these agreements through guidelines. Neither does Article 12b of Directive 2002/87/EC, according to which common guidelines are limited to risk-
	based assessments of financial conglomerates and supplementary supervision of mixed
	financial holding companies. Thus, we would recommend to reconsider the issue and clarify
	the mandate.
2	We note that the guidelines aim to supplement the functioning of sectoral colleges. At the same time, EIOPA is currently consulting extensive guidelines on the operational
	functioning of supervisory colleges set up in accordance with Directive 2009/138/EC. For
	insurance-led conglomerates it is very important that these colleges won't be overburdened
	with procedural requirements which are likely to impede the effectiveness and efficiency of supervisory processes. Therefore, we kindly request the ESAs to investigate synergies
	between the guidelines in order to avoid overlapping or even conflicting requirements.

7	
8 3. Background and Rationale	
9	
10	
11	
4. Draft Joint Committee Guidelines on the	
convergence of supervisory practices relating	
to the consistency of supervisory coordination	
arrangements for financial conglomerates	
12	

13	
14	
15	
Title I – Subject matter and scope	
1	Absent a consolidated version of Directive 2002/87/EC, we recommend to add Directive 2011/89/EC in the reference included in footnote 2 since Article 11 (1) was revised by the FICOD-review.
2	
3	The references included in footnotes 3 and 4 are flawed; footnote 3 refers to the text of footnote 4; footnote 4 needs to refer to Directive 2009/138/EC. Since both Directives are already cited in paragraph 1, the corresponding references should be placed there.
4	
5	
Title II – Mapping procedure, cooperation structure and coordination arrangements	
6	
7	
8	
9	
10	
11	
12	
13	
14	
15	
16	We suggest to clarify that the mapping refers to the regulated entities of the group defined in paragraph 15. Therefore, paragraph 16 should introduce as follows:
	"According to the regulated entities described in paragraph 15 the mapping should identify: []"
17	
18	
19	
20	
21	
22	
Title III – Coordination of information	
exchange in going concern and emergency	

situations	
23	
24	
25	
26	
27	
28	
29	We understand that the competent authorities involved, and especially the coordinator, should obtain from the entities within a financial conglomerate the information necessary for the performance of their supplementary supervision. However, as a general rule, the coordinator should be the authority which channels and define requests and eventually approaches the head or the ultimate responsible entity of the conglomerate for information. This is one of dominating motives why a coordinator is appointed. Accordingly, the direct interaction between competent supervisory authorities and the head of the conglomerate should be limited to exceptional cases, such as emergency situations.
30	
Title IV – Supervisory assessment of financial	
conglomerates	
31	
32	
33

This will help supervisors to focus their efforts and resources on issues which are material for the purpose of supplementary supervision. We are afraid that a minimum cycle of yearly meetings is not sufficient to materialize the benefits from face-to-face encounters. The ESAs may want to consider semi-annual meetings at a minimum.
